Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

Who provides electricity in Barbados?

Electricity in Barbados is entirely supplied by the Barbados Light and Power Company (BL&P). They operate the thermal generation, transmission, and distribution systems on the island.

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW (12MW RER + 10MW utility).

Can Barbadians earn passive income from solar panels?

Now a very similar model is available in Barbados which allows Barbadians to own solar panels within an operating solar project and thereby earn solar passive income for 25 ... Continue reading -> Getting involved in the funding of the global solar power transition has never been easier.

See what other happy and satisfied solar energy clients in Barbados have to say about our energy saving solutions. Our entire home is powered by the off grid system and everything works well. When we had the bad weather recently, we ...

Williams Solar, as a distinguished player in the Caribbean renewable energy space, showcases a robust and efficient operational framework that has been meticulously structured to meet the evolving demands of the solar energy sector. At its core, Williams Solar is a fully integrated solar service provider, offering a comprehensive suite of ...
