

How do you find the best replacement car battery?

To help members find the best replacement car battery, Consumer Reports tests more than 100 individual car batteries every year in our lab to help you make a smart decision when it's time to replace your battery. We test five units of each rated model to ensure that your experience matches our results.

Which car battery is best?

Even though they're more expensive, AGM batteries offer the best balance of performance, life, and price compared to standard and lithium car batteries. Lithium car batteries are lightweight, have a high energy density, and can deliver a consistent voltage throughout their discharge cycle.

When should I replace my car battery?

The battery's age is also a strong indicator that it's time to consider a replacement. The date can be found on a sticker affixed to the top or side of the battery. A battery made in October 2022 will have a numeric code of 10/22 or an alphanumeric code of K-1. "A" is for January, "B" is for February, and so on (the letter "I" is skipped).

Where can I buy a replacement battery?

The Ford Motor Company's house brand of batteries is available at Ford dealerships as well as places like O'Reilly Auto Parts, allowing folks who want to maintain OEM parts on their vehicles to access replacement batteries almost anywhere. Typically, warranties are also accepted at all of these same facilities.

How do I choose a battery?

It is important to choose a battery with the longest free-replacement period you can get. A battery's warranty is measured in two figures: the free-replacement period and the prorated period--which allows only partial reimbursement. A code of 24/84, for example, indicates a free-replacement period of 24 months and a prorated warranty of 84 months.

What is the best AGM car battery?

Specifically, the spiral cell design increases vibration damage resistance up to 15 times and offers a service life up to 3 times longer than standard batteries. With the RedTop and YellowTop models covering your car and truck needs, the Red Top earns our pick as the best AGM car battery for the money.
