

# Which kind of household battery is the best and most durable

What type of battery is best for electronics?

Best For: Alkaline batteries are the most commonly used type of primary batteries and they are best for low- to medium-power electronics, like clocks or remotes. This 8-pack of 9-volt batteries can maintain the stored power for up to five years, so users don't need to use them immediately to enjoy the benefits of at-the-ready battery power.

Are best buy batteries any good?

Typically, the Best Buys are also some of the priciest batteries. However, you can save money by opting for high scoring own-brand batteries, where a pack of eight is just a fraction of the price of other Best Buys. Log in to reveal our pick of the best batteries in our tests. Not a member? Join Which? today. Last updated June 2024.

What type of battery should I buy?

Shop around for AA and AAA batteries and the main types you'll find are alkaline and lithium disposable batteries. Lithium batteries last a lot longer in more energy intensive devices. We've found that they can give you 2-3 hours more power than an alkaline battery. But they're also much more expensive.

Which AA batteries are best?

We've compared Energizer, Duracell and Panasonic batteries with supermarket own-brand batteries, such as Aldi, Morrisons, Lidl and Sainsbury's, to find the very best. Put a set of one of our Best Buy AA disposable batteries in your most power-hungry devices, such as a camera or torch, and they will last over three hours longer than the worst.

Which rechargeable batteries should I use?

Best For: Use NiMH rechargeable batteries for various household appliances and devices, like scales, flashlights, and digital cameras. Start using these pre-charged rechargeable batteries as soon as they are out of the pack, then quickly recharge them with the included Panasonic battery charger.

What is the best alkaline battery?

We then left the batteries to cool down and re-ran our test to check if there was any charge remaining. Impressively, the Ultra AA boasted the highest result of any alkaline batteries we've reviewed, as the total capacity was an average of 1680.5mAh.

The Nitecore UMS4 Intelligent USB four-slot quick battery charger is one of the best chargers on the market and will recharge pretty much every battery you throw at it (including Ni-MH or Ni-Cd ...
